☐ Please check if any of the above information has changed since previous year.

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐

2. If active, how much ore or mineral was mined? 2,500 Tons

3. How much new or additional acreage was affected during past year? None

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

We mined about 2,500 tons of material from the pit.

We continued to work on safety benches in the old pit

that existed before we claimed the ore body. We also

improved existing roads.

5. How much acreage was reclaimed during past year? None

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

7. What is the total disturbed acreage at years end? Less than 5 acres
8. Briefly summarize mining and reclamation planned for the upcoming year.  
None at this point, but there is a strong possibility of  
a contract for calcium carbonate that would involve  
significant mining activity.

NOTE: Section III., "Additional Information" applies only to large mining operations.

### III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

### IV. SIGNATURE REQUIREMENT

I hereby certify that the foregoing is true and correct.
